FIVE YEAR LOOKBACK

**HEARTLAND
FORWARD**

AN INSTITUTE FOR ECONOMIC RENEWAL

Founded in 2019, Heartland Forward is the nation's only think-and-do tank dedicated to advancing economic success in the middle of the country - the heartland.

We define the heartland as 20 states in the middle of the country - making it the third largest GDP in the world: Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas and Wisconsin.

AS WE WORK TO ACCELERATE ECONOMIC GROWTH IN THE HEARTLAND WE FOCUS ON THREE CORE IMPACT AREAS:

REGIONAL COMPETITIVENESS

ensuring the heartland remains the third largest GDP in the world

TALENT PIPELINE

growing human capital, innovation, workforce and entrepreneurship

HEALTH AND WELLNESS

creating and sustaining healthy families, individuals and communities

WHO WE ARE

We are the only think-and-do tank leading the way forward to achieve an ever-stronger economic future in the heartland.

WHAT WE DO

We build strong public-private partnerships, engage in cutting-edge research, convene policymakers, philanthropy, academia, investors and cross-industry leaders—all in service of accelerating economic growth.

HOW WE DO IT

As a think-and-do tank, we apply our research and work on the ground to develop and implement innovative programming and initiatives, host events and advocate at the federal, state and local level for smart policy and economic solutions.

A BOLD GOAL

\$500M

IN 5 YEARS

We are committed to generating \$500 million in economic impact in the heartland by 2030 to transform and build a thriving future for the heartland.

LETTER FROM LEADERSHIP

Dear Friends and Supporters,

As we reflect on 2024 and look forward to an exciting 2025, we are proud to share the strides Heartland Forward has made to drive economic growth and innovation across the heartland.

2024 marked a pivotal moment in our journey as we celebrated our fifth anniversary. We embraced bold leadership changes, launched transformative initiatives and expanded our research and programming. Together, these efforts set the stage for Heartland Forward to set a goal of **generating \$500 million in economic impact in the heartland by 2030**. Through our work we will ensure the heartland remains the third largest GDP in the world.

As we chart our course for 2025 and beyond, Heartland Forward is steadfast in its commitment to creating thriving, resilient communities across the heartland. We will continue to advance our research and programs to new and unprecedented levels.

We will:

- Launch *Pulse of the Heartland* to provide real-time economic insights and showcase regional competitiveness.
- Continue to drive forward multi-pronged, multi-state initiatives to connect unconnected communities to affordable high-speed internet, grow the talent pipeline and strengthen health and wellness.
- Ensure our communities are leading and are not left behind, in 2025 we are ramping up our research and programs to focus on harnessing the power of AI in the heartland. We know understanding the impact of AI on health care, manufacturing, agriculture and education in the heartland is an increasingly urgent matter for policymakers, business leaders and broader society.

We are thrilled to host the Heartland Summit, May 7-8, 2025 in Bentonville, Arkansas. For the fourth time, our flagship event will bring together 350 policymakers, investors, entrepreneurs, business, philanthropy and thought leaders to “Meet in the Middle” across sectors, geographies and generations.

Our collective efforts—from innovative research to impactful programs—will continue to strengthen and grow the region’s potential and drive measurable economic growth. We are excited for the journey ahead and hope you will join us in helping advance economic growth in the heartland.
